Nichols & Noyes announce a volume of sermons by the late Rev. Samuel Abbott Smith, with a Memoir by the Rev. E. J. Young; "Little Things of Nature," by Leo. H. Grindon, author of "Phenomena of Plant Life;" and "Our Eternal Home, by a Bible Student."

A valuable work to Biblical students generally, and to all who are interested in Jewish history, is aunounced by Thaimessinger & Cahn, No. 310 Broadway. This is a translation by Mr. Maurice Mayer of Dr. Abraham Geiger's. "Judaism and its History," down to the destruction of Jerusalem. Dr. Geiger's efforts for reform in Judaism have made him probably the most celebrated theologian of his faith in Germany, and he also bears a high reputation as an orientalist The present work was received with great favor on its first publication, about a year ago, and has already passed through twe editions in Germany. It centains several chapters on the Origin and Development of Christianity, and an appendix entitled "Repan and Strasss."

Carleton has in press "Alec Forbes," by George McDonald, and "Joseph IL, translated from the German." The latter, we believe, is a historical novel which was rendered into English and published at the South during the war, being one of the very few books out of many bearing a South-era imprint that were really manufactured in the Confederate States. A number of copies of it found their way to Apple ; ton's bookstore after the war, and attracted a great deal of curiosity by their sude appearance, dingy paper, and covers of

Harper & Brother have in press: "Armadale," by Wilkie Colins; "Lectures on the Study of History," by Goldwin Smith; "First Lessons in Numbers," by John H. French, L.L. D; "Phemie Keller," by F. G. Trafford. The author of the "Sayings of Josh Billings" is

Mr. Henry W. Shaw of Poughkeepsie.

Mr. C. C. Collin's volume of army experiences is cow in the press of Ticknor & Fields. It is called "Four

Dr. Furness has translated Schenkel's book on Christ, and it will, probably, be published in the Autumn, with

THE HARRISON BOILER a safe Steam Boiler.—
This new Steam Generator combines essential advantages IN ABSOLUTE SAFETY FROM EXPLOSION, in first cost and cost of repairs, durability, economy of fool, facility of cleaning and transpartation, not possessed by any other boiler.

It is formed of a combination of cash-iron hollow spheres, each eight inches in external diameter and three-eighths of an inch thick. These subseres are held together by wrought-iron boils with caps at the ends. The form is the strongest known: its strength to resist internal pressure very great—unwaskened as it is by punching or rivering, which leasens the strength of the wrought-iron boiler plate about 60 per cent. Every bodier is tested by hydrauthic pressure at 400 pounds to the square inch. IT CANNOT BE BURST CNOER ANY PRACTICA.

Blue STEAM PRESSURE.

Under pressure which might cause/rupture in ordinary bellets, every joint in this becomes a safety vaive. No other steam generator possesses this property of relief under extreme pressure without injury to itself, and thus preventing disaster.

It is not affected by currosion, which soon destroys the wrought-iron boiler. Most explosions occur from this cause. It has economy in fuel equal to the best boilers, arising from the large-eitent and marines to the first of its heeting unifore, as sho from the waved time of the surface, which, thoroughly mixing the gases, induces below combustion, and, breaking the flame, causes the heat to bemier effectively abouted than in the unit with little fuel, II produces super heated steam without reparts apparate, and is not liable to princing or footing. It is easily changed the produces the producer super is a superior of the footing the water entirely out, under full pressure, once a week. It requires no special skill in no produce to princing the cause with most being the wate (Established 1973)

A full assertment of these instruments, which have been well known in the New York market for more than 30 years, constantly on hand. We are continually adding improvements to our planes, and our facilities enable us to furnish them at terms and prices satisfactory to purchasers. Fictorial circulers sent by mail. Warercom No. 126 Grandst, pear Broadway, New York.
